

Streamline Business Communication with Faxination SMS

Seamless connectivity is vital for ongoing business success, and Faxination's Mobile Device Connector is the solution your business needs to facilitate end-to-end communications effortlessly. With this, Faxination users can transform how they send and receive SMS—using the same process as emails and faxes—straight from their desktop.

BENEFITS-AT-A-GLANCE

- ▶ **Simplified Logging and Reporting:** Management portal for basic reporting and logging.
- ▶ **Cost-Effective:** Customized licensing based on your requirements.
- ▶ **Reliable and Scalable:** Depend on a system that grows with your business needs.
- ▶ **Easy Management and Deployment:** Simplified setup and service level agreements tailored to your existing infrastructure.
- ▶ **Compliance Assistance:** Stay ahead of regulatory requirements.

ENJOY SEAMLESS SYSTEM INTEGRATION

The Faxination Mobile Device Connector allows direct transmission of messages to the Short Message Service Center (SMSC) or Message Switch and vice versa. Users can leverage bidirectional communication from their mobile devices or pagers directly to the Fenestrae Communication Server, facilitating delivery to addresses, distribution lists, or boxes.

For businesses with multiple SMSCs or Message Switches, Faxination Mobile Device Connector can be configured to dispatch messages through your preferred channel.

EXPLORE KEY FEATURES DESIGNED FOR COMMUNICATION EFFICIENCY
